PRODUCT DESCRIPTION

The Deck Mounted Bath Mixer combines a high curved spout with separate control elements and an integrated hand shower arranged across the bath deck. Its multi-component configuration creates a clear separation between the water outlet, controls and hand shower, while the cylindrical forms and round mounting bases provide a coordinated contemporary appearance. The black finish gives the complete set a uniform and distinctive look.

DIMENSIONAL DRAWING

MM

All dimensions are shown in millimetres unless otherwise stated. Site conditions, cut-out, trap system and mixer clearance should be verified before installation.
