PRODUCT DESCRIPTION

The Three Hole Basin Mixer combines a high curved spout with separate cylindrical controls arranged across the basin deck. Its clean geometric form and polished chrome finish create a coordinated contemporary appearance, while the three-piece configuration separates the spout and controls for a balanced installation. The curved spout provides a generous basin reach and the individual controls offer a distinct, refined layout.

DIMENSIONAL DRAWING
MM

All dimensions are shown in millimetres unless otherwise stated. Site conditions, cut-out, trap system and mixer clearance should be verified before installation.
