PRODUCT DESCRIPTION

Contemporary concealed shower mixer designed for a clean, minimal wall-mounted installation. The exposed trim is organized around a circular face plate with a compact upper outlet control and a larger single-lever mixer control below, creating a balanced vertical composition. Its rounded geometry, cylindrical control elements and slim lever rod give the product a refined modern character that suits contemporary bathroom interiors. The concealed installation keeps the functional mixer body hidden within the wall, leaving only the essential control elements visible for a neat and uncluttered finish. Available in Chrome, Matte Black and Gold, the mixer can be coordinated with a wide range of modern shower fittings and bathroom accessories in residential, hospitality and premium commercial projects.

DIMENSIONAL DRAWING

MM

All dimensions are shown in millimetres unless otherwise stated. Site conditions, cut-out, trap system and mixer clearance should be verified before installation.
