## PRODUCT DESCRIPTION

Contemporary round rain shower head designed to create a clean, refined overhead shower feature in modern bathroom interiors. Its broad circular spray face is defined by a slim profile and evenly distributed nozzles, giving the product a balanced and minimalist appearance while providing a wide rain-style spray area. The stainless steel construction supports a premium exposed finish, and the compact central connection keeps the visual composition neat when paired with a wall-mounted shower arm. The rounded form offers a softer alternative to square shower heads and coordinates easily with curved mixers, concealed controls and contemporary bathroom accessories. Available in Chrome, Matte Black, Gold, Nickel and Bronze, the shower head is suitable for residential, hospitality and premium commercial shower environments where a simple architectural aesthetic and coordinated finish selection are important.

**DIMENSIONAL DRAWING**
**MM**

All dimensions are shown in millimetres unless otherwise stated. Site conditions, cut-out, trap system and mixer clearance should be verified before installation.
