PRODUCT DESCRIPTION

Contemporary wall-mounted rain shower head designed with a compact square profile and a slim architectural form. The broad, flat spray face creates a clean overhead shower presence while keeping the overall appearance minimal and refined. Softly rounded corners subtly soften the geometric square shape, giving the product a balanced modern character that integrates easily into contemporary bathroom interiors. Constructed from stainless steel, the shower head is designed for exposed wall-mounted installation and is supplied with the associated wall fixing. Its restrained proportions make it suitable for bathrooms where a compact rain shower solution is preferred without losing the visual impact of a square overhead head. Available in Chrome and Matte Black, it can be coordinated with concealed or exposed shower controls across residential, hospitality and premium commercial applications.

DIMENSIONAL DRAWING

MM

All dimensions are shown in millimetres unless otherwise stated. Site conditions, cut-out, trap system and mixer clearance should be verified before installation.
