PRODUCT DESCRIPTION

Compact round rain shower head designed for contemporary bathrooms requiring a refined overhead shower solution with clean proportions. Its slim circular body and evenly distributed spray pattern create a balanced, minimalist appearance while maintaining a broad rain-style shower experience. The stainless steel construction gives the product a durable and premium exposed finish, and the compact central connection keeps the installation visually neat when paired with a wall-mounted shower arm. The rounded form offers a softer alternative to square overhead showers and integrates naturally with curved mixers, concealed controls and contemporary bathroom accessories. Available in Chrome, Matte Black, Gold, Nickel and Bronze, the shower head is suitable for residential, hospitality and premium commercial environments where coordinated finishes and a clean architectural aesthetic are important.

DIMENSIONAL DRAWING

MM

All dimensions are shown in millimetres unless otherwise stated. Site conditions, cut-out, trap system and mixer clearance should be verified before installation.
